BUILD A CAR FOR ME!

GEEKS FOR KIDS 2023

GIVE KIDS WITH MOVEMENT LIMITATIONS THE #POWER2PLAY

Over 500,000 American kids under the age of five have mobility problems. They often can't run and play with other kids, and this limits their development. Geeks for Kids changes that! Join us in building hot rods that get these kids moving - and make them the coolest kids on the block. Together, we can give kids with movement limitations the #Power2Play!

Volunteer!

Design & Planning Teams

Our leadership teams meet every Monday and Thursday evening. The Design Team designs and builds the high tech systems our kids need. And, our Planning Team handles all the business tasks. Join the team!

Build Events

At our Saturday Build events, we assemble the cars. No matter your skills, you can make a difference! Join us on the first Saturday of every month, starting September 10 through May 6 from 8:30a to 4:30p.

Delivery Day

On June 3 or 10, depending on weather, it is time to get our kids racing. We will do a final fitting, train the families how to care for the cars, and teach the kids how to drive. And, then we will celebrate. Join us!

Geeks.LearnScienceAndMathClub.org

LEARN SCIENCE & MATH CLUB

A local not-for-profit STEM enrichment program for kids 5 to 18 invites you to make a difference in kids' lives. Get involved today - build, sponsor or donate!

THANKS TO YOU...

THE 2022 GEEKS FOR KIDS WAS A HUGE SUCCESS!

- 12 months
- **121 strategy, design, build and delivery sessions**
- 150 volunteers
- 19 corporate sponsors plus dozens of individual donors
- Over 11,600 labor hours
- Over $140,000

- 45 kids got the #Power2Play in:
  - 10 "Go Button" cars
  - 8 "Drive-by-Wire" cars
  - 19 Joystick- and remote control-driven cars
  - 3 Control panel- and remote-control driven cars
  - 1 head-controlled drive car
  - 2 Clinic cars
  - 2 Eye-gaze-controlled and next generation prototype cars
  - And, endless joy and new opportunities for all the kids
