

# NEED A CAR? **APPLY!**

## GEEKS **FOR** KIDS 2023

### Building Cars for Kids with Movement Limitations

We design and build custom, electric, ride-on cars for kids with movement limitations. If you have or know of a child who cannot easily move about and explore, we would love to help. We serve kids ages 1 to 10 years of age and up to 90 pounds.

The cars are a gift. There is no cost to you or your child. You only need to apply, meet with us to discuss your child's needs and review our designs. If you like, you can also participate in the building of your child's car. (Our all-volunteer team can use all the help it can get.) Then, join us on Delivery Day where we will do a final fitting, teach you how to use the car and do a test drive.

Apply for a car today! It's easy. Go to the link below, and fill out the form. It only takes about 5 minutes. We accept every application, provided we can meet your child's needs and can raise the money to cover the costs.

**THANKS TO YOU...**

## THE 2022 GEEKS FOR KIDS WAS A HUGE SUCCESS

- 12 months
- 121 strategy, design, build and delivery sessions
- 150 volunteers
- 19 corporate sponsors plus dozens of individual donors
- Over 11,600 labor hours
- Over \$140,000
- 45 kids got the #Power2Play in:
  - 10 "Go Button" cars
  - 8 "Drive-by-Wire" cars
  - 19 Joystick- and remote control-driven cars
  - 3 Control panel- and remote-control driven cars
  - 1 head-controlled drive car
  - 2 Clinic cars
  - 2 Eye-gaze-controlled and next generation prototype cars
  - And, endless joy and new opportunities for all the kids
