

BUILD A CAR FOR ME!

GEEKS FOR KIDS

Gives Kids with Movement Limitations the #Power2Play

Millions of American kids have mobility problems. When they can't run and play with other kids, their minds and bodies don't grow as they should. We change that! Build hot rods and other assistive devices with us. Together, we can make them the coolest kids on the block and give them the #Power2Play!

Volunteer!

Design & Business Teams

The Design Team creates the high tech systems our kids need. And, our Business Leaders Board handles all the non-tech tasks: event planning, marketing, finance, fundraising and recruiting kids, volunteers and referral agencies. Join the team!

Build Events

At our monthly Build events, we assemble the cars and begin adding all the parts our Design Team has built. No matter your skills, you can make a difference! Join us on the 2nd Saturday of every month from August to May, 8:30a to 4:30p.

Delivery Days

Our kids receive their cars at our annual Fall Delivery Day & All Abilities Trunk or Treat event and at our Summer Delivery Celebrations. We will do final fittings, train the families how to care for the cars, teach the kids how to drive and then celebrate. Join us!

Geeks.LearnScienceAndMathClub.org

A local not-for-profit, providing STEM enrichment program for kids 5 to 21, invites you to make a difference in our kids' lives. Get involved today - build, sponsor or donate!

GEEKS FOR KIDS

2024 WAS A HUGE SUCCESS!

- 12 months
